Swing for Schlesinger is a Benefit for David Schlesinger, his wife and three young children. David, a healthy, active 43 year old, woke on November 12, 2007 from emergency surgery to find himself paralyzed from his mid-chest down. What felt like a normal sports related pain - an ache that took a backseat to his life responsibilities - was really an undiagnosed disk compression resulting in a ruptured cervical disk. At that moment, David's and his family's life changed. David's stamina, determination and family support became core for his progress. Swing for Schlesinger aims to raise funds so David and his family can focus on his recovery.

Join us, join me in supporting this important cause for my brother - a man, a husband, a father with great determination and values.

Sincerely, Lisa Schlesinger, Chair
